

R **RESPONDER** **1000**

**Flexible & Affordable In-Car Digital Video
for Law Enforcement**

The Responder Advantage.

The Responder 1000, the next generation of Decatur Electronics' popular video system, provides an affordable in-car video system that is easy to use in the car and in the office.

Flexible.

In-car video shouldn't dictate your procedures. The Responder 1000 works the way you do. Choose one of four different mounting options based on your own SOPs.

Simple Operation.

Decatur Electronics integrated customer feedback into the Responder 1000, making it even simpler to use. The unit's internal menus have been streamlined for ease of use and a new release of the back office File Manager software makes organizing and finding evidence easier than ever.

Affordable.

The Responder 1000 provides clear video evidence at a price that fits the budget of almost any department.

- Meets proposed IACP standards for video quality
- Capture probable cause with 15- or 30-second pre-event
- High quality microphone pack captures clear audio
- 60 GB hard drive or 32 GB solid state SD card reduces down time

RESPONDER
Video Evidence Technology

In-Car Video That Works The Way You Do.

The Responder 1000 provides a variety of in-car options. In-car video shouldn't dictate your procedures – find a mounting solution that fits your officers, your cars and your procedures.

Console Mount

Part# S800-2031-0

Mounted on the center console, the Responder 1000 sits at the officer's fingertips. A straight-forward option for departments looking for a classic design.

- DVR on pedestal mount
- Keeps hardware near officer
- Traditional and reliable

Overhead LCD Monitor

Part# S800-2033-0

A small LCD monitor near the roof allows officers to review video while keeping their eyes up. The DVR can be mounted out of the way elsewhere in the cab and controlled via remote.

- Overhead 3.5" LCD display
- Keeps vehicle neat and clean
- New mount improves viewing angles

In-Car Computer

Part# S800-2036-0

With a lightweight software package, video evidence can be reviewed on an in-car computer. The DVR is mounted out of the way, taking advantage of the large computer screen and keeping the officer's environment clean.

- Video reviewed on in-car computer
- Control via DVR remote
- Maximize technology already in the car

Rear View Mirror

Part# S800-2037-0

A rear view mirror with an integrated LCD display allows officers to review video with their eyes up without adding anything more to the interior of the vehicle. A simple switch allows officers to turn the display off when not in use.

- On/Off switch display within mirror
- Meets IACP reflectivity guidelines
- Keeps eyes up and on the road

Responder 1000 File Manager

The File Manager software provides a fast and simple solution for digital evidence management and simplifies file transfer and file organization. Search for evidence by date, officer or by user comments.

What People are Saying:

"I have reviewed and shown others playback of files that the Responder 1000 system has recorded and the quality has met the expectation of all."

"Upon asking officers that have been assigned this vehicle their thoughts on the Responder 1000 system, I have only received overwhelmingly positive replies."

*- Sgt. Peter Goldman
Oakland Hill Police Department*

"The Indonesian Frontline Forensic Project equipped 56 vehicles with the Responder 1000. In selection of the technology for the project, it was essential to satisfy the following requirements – ease of use; international standards for legal validation and verification of evidence; reliability; robust enough to operate in harsh, remote environments."

"The Decatur system has proven to be ideal for the project in every respect and has been well received by the Indonesian Police at all levels."

*- Kevin Dobson
Indonesian Frontline Forensic Project*

"We've got a fleet of 130 cars. With 30 units, we've found you can't beat the Responder 1000 for the price."

"The midrange camera and the 40 hour capacity really convinced us — we really like them."

*- Lt. W. G. Campbell
Bradley County, TN*
